# Western Region Integrated Care

*A La Crosse, Monroe, and Jackson county collaboration to ensure a core set of effective and recovery-based mental health and substance abuse services is available across partner counties.*

Western Regional Integrated Care is responsible for the planning, implementation, and coordination of a comprehensive array of services for persons with mental illness. In some instances, these are provided by agency staff, but the majority of services are provided via contracts with a number of community agencies. Examples of agencies include hospitals, sheltered workshops, rehabilitation agencies, and private counseling agencies. The consortium also collaborates with other county departments in the provision of protective services to adults who are elderly or disabled. In both programmatic and client specific issues, we utilize recovery oriented philosophy to guide our thinking. This includes an emphasis on community versus institutional services, care and treatment in the least restrictive setting, early identification and crisis intervention, consumer empowerment, and the right of persons with disabilities to live a life experience fully integrated with others.

## Comprehensive Community Services (CCS)

### General Description:

The Comprehensive Community Services (CCS) program is a community-based psychosocial rehabilitation service that provides or arranges for psychosocial rehabilitation services for eligible adult or child consumers.

- ❖ *Psychosocial rehabilitation services are medical and remedial services and supportive activities that assist the consumer to achieve his or her highest possible level of independent functioning, stability, and to facilitate recovery.*

### Who is Eligible:

1. Person of any age with a mental health or substance abuse diagnosis AND
2. Functional impairment that interferes with or limits three or more major life domains that results in needs for services that are described as ongoing, comprehensive, and either high-intensity or low-intensity
3. Must be a La Crosse, Monroe, or Jackson County resident who displays a need that cannot be met by access services elsewhere in the larger mental health service continuum.
4. Must have MA

### Program Components:

**Participants** of the CCS program are able to develop a network of unique and innovative psychosocial rehabilitation services that will be available to meet consumer needs.

**The CCS team** consists of:

- **Consumer**
- **County staff** that fulfill the roles of:
  - Service facilitator
  - Mental health professional
  - Substance abuse professional (as needed in dual diagnosis cases)
  - Administrator
  - Service director

- Nurse as applicable.
  - Prescriber as applicable.
  - Counselor/therapist as applicable
- **CCS Service Array** – variety of community providers/vendors who are contracted to provide psychosocial rehabilitative services. The consumer, SF and MHP determine what services are needed in each case and coordinated with the specific vendors to provide the needed interventions:
    - Assessment
    - Service planning
    - Service facilitation
    - Diagnostic evaluation
    - Medication management
    - Physical health and monitoring
    - Peer support
    - Skill development & enhancement
    - Employment related skills training
    - Psychoeducation
    - Wellness management
    - Psychotherapy
    - Substance use treatment

**A Recovery Team** will be formed for each consumer. Membership on this team will be developed, based on consumer preference, and will include professionals and individuals from the consumer’s natural support system. These recovery teams will utilize the expertise of all members to determine the psychosocial supports and services required to assist the consumer in meeting their expressed goals and move forward in their journey of recovery.

**A CCS Coordinating Committee** (WRIC CCS Coordination Committee) comprised of approximately 1/3 consumers, 1/3 county staff, and 1/3 providers/advocates will provide oversight to the program. This committee will advise the CCS program in such areas as service development and quality improvement.

### **Recovery Principles:**

Services are provided in a manner that is respectful, culturally appropriate, and collaborative between consumer and providers, based on consumer choice and protective of consumer rights.

Motivational interviewing and person centered planning are a large part of the CCS program provision. Skills training and skill enhancement are regularly practiced by the CCS team to improve their skills in regards to the use of these mental health techniques. Other evidenced based practices are utilized and given priority focusing the selection of service added to recovery plans.

Education about recovery model principles, both to staff and participants. is an ongoing part of the process. This helps to ensure that programs, policies, services, and program integrity is focused on recovery in its service delivery.

# **The Vision for Comprehensive Community Services**

Wisconsin has long been a leader in the development of supportive services to persons with mental health and substance abuse service needs, who are living in the community. With the development of Comprehensive Community Services (CCS), the Wisconsin Department of Health Services increased access to supportive services for children, adolescents, and adults including older adults with mental health or substance use disorders. CCS programs provide psychosocial rehabilitation services to consumers who have needs for ongoing, high or low-intensity services resulting from mental health or substance use disorders, but who are not in need of Community Support Program (CSP) services. The addition of CCS to the array of services provides consumers and counties with more choices to match consumer needs with appropriate supports. CCS programs use a wraparound model that is flexible, consumer directed, recovery oriented, strength and outcome based. The focus of CCS programs is to assist consumers in efforts to maximize their independence.

In 1997, after a year of analysis and input from providers, stakeholders and consumers, Wisconsin's Blue Ribbon Commission on Mental Health came out with definitive recommendations to change the way mental health and substance abuse services are provided in Wisconsin. The Department used these recommendations in the development of DHS 36, Comprehensive Community Services. Guiding Principles include:

- Meaningful participation of consumers, their chosen supports systems and/or families, and advocates is critical to successful system design, implementation and on-going quality improvement.
- Services focus on successful living in communities and provide access to jobs, housing and transportation as well as health, educational, vocational, social, spiritual and recreational resources. They make full use of natural supports.
- Consumers are empowered to take more control of their lives and are given the resources and skills to be responsible for their actions and decisions.
- Families of children and adolescents involved in the mental health and substance abuse system are recognized as central partners in the service and treatment process.
- Treatment and other services are cost effective and efficiently use all available resources, including natural supports, to achieve positive consumer outcomes.
- The mental health substance abuse system takes a flexible, creative, and at times non-traditional approach to providing services. Services are comprehensive, culturally relevant and within available resources make every effort to meet the needs of consumers, families and communities.

The Department, and in particular, the Bureau of Mental Health and Substance Abuse Services views the creation of the CCS benefit as one of the ways to transform the mental health and substance abuse delivery system in Wisconsin. It is anticipated that, over time, the success of this recovery-based program will stimulate changes in existing local programs to facilitate a seamless system of services based on hope, empowerment and recovery.

## **Core Values of the CCS Program**

CCS was built upon a commitment to participants' recovery and participant empowerment principles which having been part of the "core" of our redesign initiative.

In addition to this, the "Core Values" for CCS include the following:

- Consumer/member and family centered
- Consumer education in the recovery model of service delivery
- Consumer involvement in planning individual recovery/service plan
- Build on and encourage use of community supports
- Strength based focus
- Coordination and collaboration across systems
- Multidisciplinary teaming

- Self sufficiency
- Recovery/Reintegration
- Education and work focus
- Belief in growth
- Outcome oriented
- Integration of health outcomes
- Fiscal responsibly as a program
- Use of both traditional and nontraditional services
- Exclusive focus on rehabilitative services, not habilitative or maintenance.
- Use of evidenced based practices, motivational interviewing, and person-centered planning

## What Are Psychosocial Services?

Comprehensive Community Services (CCS) is a program through which Western Region Integrated Care assists a person to develop a plan for recovery. Medical Assistance will reimburse the counties for a good portion of the psychosocial services that these programs coordinate, provide, and pays. The plan must show the need, purpose, and outcome of psychosocial services paid by CCS.

Services purchased by WRIC for these programs must fit into these criteria:

### State Guidelines

- Determined through assessment to be a need and involve a direct service.
- Address mental health or substance abuse disorder to maximize functioning and minimize symptoms in most economical way consistent with needs.
- Be consistent with consumer’s diagnosis and symptoms.
- Safely and effectively match consumer’s need for support and motivational level.
- Not solely for the convenience of the consumer, family, or provider.
- Be of proven value and usefulness for the consumer and least restrictive setting.

### Federal Guidelines

- Anything purchased must also meet the Federal guidelines of “*Medical and remedial services and supportive activities that assist an individual to achieve his or her highest possible level of independent functioning, stability, and to facilitate recovery*”

## Quality Assurance

The CCS program has a multilayered and extensive system that strives to become a part of the culture of the team and the services we provide. There are four main areas that we have built into the system to address ongoing quality assurance and improvement in our program. Each of those being built to support the one before with the hope that all of them working together assist us in assuring we are providing a solid clinical product. In addition to the service provision, we hope to accurately document the great clinical work that is being provided. In an attempt to show the programs dedication to the recovery model, we strive towards producing clinical records through our electronic health record where this can be easily obtained. See the Provider Documentation Expectations document for further details about vendors’ role in this important issue.

## Non-Covered Services

- Services that are not psychosocial in nature as defined by State and Federal guidelines
- Intensive In-home Mental Health/Substance Abuse Treatment Services for Children – HealthCheck “Other Services” benefit
- Child/Adolescent Day Treatment – HealthCheck “Other Services” benefit
- Crisis Intervention Benefit
  - The CCS Program can coordinate a member’s crisis services, but not actually provide crisis services
- Community Support Program (CSP) benefit
  - Members may not be enrolled in both CCS and CSP at the same time
- Targeted Case Management (TCM) benefit
  - Members may not be enrolled in both CCS and TCM at the same time
- Narcotic Treatment benefit (opioid treatment programs)
  - The CCS program covers substance abuse services as defined in the CCS Service Array. Substance abuse counseling is covered under CCS Service Array category titled Substance Abuse Treatment.”
- Non-emergency Medical Transportation benefit
  - The CCS program does not cover time spent solely to transport member.
  - Members should use the Non-Emergency Medical Transportation benefit for transportation services; however, a CCS provider may provide a service covered under the CCS service array to a member while traveling with the member.
- Services to members residing in Residential Care Centers
- Autism services
- Developmental disability services
- Learning disorder services
- Respite care
- Sheltered workshop
- Job development
  - The CCS program does not cover activities related to finding a member a specific job. The CCS program covers employment-related skills training as defined in CCS Service Array category titled “Employment-Related Skill Training
- Clubhouses
  - The CCS program does not cover time spent by a member working a clubhouse. The CCS program covers time spent by clubhouse staff in providing psychosocial rehabilitation services, as defined in the CCS Service Array, for members.
- Operating While Intoxicated assessments
- Urine analysis and drug screening
- Prescription drug dispensing
  - The CCS program does not cover solely the dispensing of prescription drugs. The CCS program does cover medication management services as defined in CCS Service Array category titled, “Medication Management.”
- Detoxification services
  - Medically managed inpatient
  - Medically monitored residential
  - Ambulatory
- Residential intoxication monitoring services
- Medically managed inpatient treatment services

- Case management services provided under DHS 107.32, Wis. Admin. Code, by a provider not enrolled in accordance with DHS 105.255, Wis. Admin. Code, to provide CCS services
- Services provided to a resident of an intermediate care facility, skilled nursing facility or an institution for mental diseases or to a hospital patient unless the services are performed to prepare the recipient for discharge from the facility to reside in the community.
- Services performed by volunteers, except that out-of-pocket expenses incurred by volunteers in performing services may be covered. CCS programs may use volunteers to support the activities of CCS staff. Before a volunteer may work independently with a CCS member or family member, the CCS program must conduct a background check on the volunteer. Each member must be supervised by a qualified staff member and receive orientation and training. See DHS 36.10, Wis. Admin. Coe, for more information
- Services that are not rehabilitative, including services that are primarily recreation oriented.
- Legal advocacy performed by an attorney or paralegal.

**Services that will remain fee for service through Medical Assistance in the CCS Program:**

- Pharmaceutical medication management when performed by a psychiatrist or prescriber (excluding WRIC county prescribers)

**Group psychotherapy is limited to no more than 10 persons in a group.** No more than two professionals shall be reimbursed for a single session of group psychotherapy. Mental health technicians shall not be reimbursed for group psychotherapy. [DHS 107.13\(7\)\(b\)2.](#)

## CCS Service Array for Children, Adolescents and Adults

### DHS 36 - CCS Psychosocial Rehabilitation

<u>SERVICE ARRAY</u>	<u>DESCRIPTION OF ACTIVITY</u>
<b><i>Screening &amp; Assessment</i></b>	<p>Screening &amp; assessment services include: completion of initial &amp; annual functional screens, &amp; completing of the initial comprehensive assessment &amp; ongoing assessments as needed. The assessment must cover all the domains, including substance use, which may include using the Uniform Placement Criteria or the American Society of Addiction Medicine Criteria. The assessment must address strengths, needs, recovery goals, priorities, preferences, values, &amp; lifestyle of the member &amp; identify how to evaluate progress toward the member’s desired outcomes.</p> <p>Assessments for minors must address the minor’s &amp; family’s strengths, needs recovery and/or resilience goals, priorities, preferences, values &amp; lifestyle of the member including an assessment of the relationships between the minor &amp; his or her family. Assessments for minors should be age (developmentally) appropriate.</p>
<b><i>Service Planning</i></b>	<p>Service planning includes the development of a written plan of the psychosocial rehabilitation services that will be provided or arranged for the member. All services must be authorized by a mental health professional &amp; a substance abuse professional if substance abuse services will be provided. The service plan is based on the assessed needs of the member. It must include measurable objectives &amp; the type &amp; frequency of data that will be used to measure progress toward the desired outcomes. It must be completed within 30 days of the member’s application</p>

	<p>for CCS services. The completed services plan must be signed by the member, a mental health or substance abuse professional &amp; the service facilitator.</p> <p>The service plan must be reviewed &amp; updated based on the needs of the member or at least every six months. The review must include an assessment of the progress toward objectives and member satisfaction with the services. The service plan review must be facilitated by the service facilitator in collaboration with the member and the recovery team.</p>
<b><i>Service Facilitation</i></b>	<p>Service facilitation includes activities that ensure the member receives: assessment services, service planning, service delivery and supportive activities in an appropriate and timely manner. It also includes ensuring the service plan and service delivery for each member is coordinated, monitored, and designed to support the member in a manner that helps the member achieve the highest possible level of independent functioning. Service facilitation includes assisting the member in self-advocacy and helping the member obtain other necessary services such as medical, dental, legal, financial and housing services.</p> <p>Service facilitation for minors includes advocating, and assisting the minor’s family in advocating, for the minor to obtain necessary services. When working with a minor, service facilitation that is designed to support the family must be directly related to the assessed needs of the minor.</p> <p>Service facilitation includes coordinating a person’s crisis services, but not actually providing crisis services. Crisis services are provided by DHS 34 certified programs.</p> <p>All services should be culturally, linguistically, and age (developmentally) appropriate.</p>
<b><i>Individual Skill Development &amp; Enhancement</i></b>	<p>Individual skill development and enhancement services include training in communication, interpersonal skills, problem solving, decision making, self-regulation, conflict resolution, and other specific needs identified I the member’s service plan. Services also include training in daily living skills related to personal care, household tasks, financial management, transportation, shopping, parenting, accessing and connecting to community resources and services (including health care services) and other specific daily living needs identified in the member’s services plan.</p> <p>Services provided to minors should also focus on improving integration into and interaction with the minor’s family, school, community, and other social networks. Services include assisting the minor’s family in gaining skills to assist the minor with individual skill development and enhancement. Services that are designed to support the family must be directly related to the assessed needs of the minor.</p> <p>Skill training may be provided by various methods, including but not limited to modeling, monitoring, mentoring, supervision, assistance, and cuing. Skill training may be provided individually or in a group setting.</p>
<b><i>Diagnostic Evaluations</i></b>	<p>Diagnostic evaluations include specialized evaluations needed by the member including, but not limited to neuropsychological, geropsychiatric, specialized trauma, and eating disorder evaluations. For minors, diagnostic evaluations can also include functional behavioral evaluations and adolescent alcohol/drug assessment intervention program.</p> <p>The CCS program does not cover evaluations for autism, developmental disabilities, or learning disabilities.</p>

<p><b><i>Employment Related Skill Training</i></b></p>	<p>Services that address the person’s illness or symptom-related problems in order to secure and keep a job. Services may include but are not limited to: Employment and education assessments; assistance in accessing or participating in educational and employment related services; education about appropriate job-related behaviors; assistance with job preparation activities such as personal hygiene, clothing, and transportation; on-site employment evaluation and feedback sessions to identify and manage work-related symptoms; assistance with work-related crises; and individual therapeutic support.</p> <p>The CCS program does not cover time spent by the member working in a clubhouse. The CCS program covers time spent by clubhouse staff in providing psychosocial rehabilitation services, as defined in the service array, for the member if those services are identified in the member’s service plan.</p>
<p><b><i>Physical Health &amp; Monitoring</i></b></p>	<p>Physical health monitoring services focus on how the member’s mental health and/or substance abuse issues impact his or her ability to monitor and manage physical health and health risks.</p> <p>Physical health monitoring services include activities related to the monitoring and management of a member’s physical health. Services may include assisting and training the member and the member’s family to: identify symptoms of physical health conditions, monitor physical health medications and treatments, and develop health monitoring and management skills.</p>
<p><b><i>Peer Support</i></b></p>	<p>Peer support services include a wide range of supports to assist the member and the member’s family with mental health and/or substance abuse issues in the recovery process. These services promote wellness, self-direction, and recovery by enhancing the skills and abilities of members to meet their chosen goals. The services also help members negotiate the mental health and/or substance abuse systems with dignity, and without trauma. Through a mutually empowering relationship, Certified Peer Specialists and members work as equals toward living in recovery.</p>
<p><b><i>Individual and/or Family Psychoeducation</i></b></p>	<p>Psychoeducation services include: Providing education and information resources about the member’s mental health and/or substance abuse issues, skills training, problem solving, and ongoing guidance about managing and coping with mental health and/or substance abuse issues; and social and emotional support for dealing with mental health and/or substance abuse issues. Psychoeducation may be provided individually or in group setting to the member of the member’s family and natural supports (ie: anyone the member identifies as being supportive in his or her recovery and/or resilience process). Psychoeducation is not psychotherapy.</p> <p>Family psychoeducation must be provided for the direct benefit of the member. Consultation to family members for treatment of their issues not related to the member is not included as part of family psychoeducation. Family psychoeducation may include anticipatory guidance with the member is a minor.</p> <p>If psychoeducation is provided without the other components of the wellness management and recovery service array category (#11) it should be billed under this service array.</p>
<p><b><i>Psychotherapy</i></b></p>	<p>Psychotherapy includes the diagnosis and treatment of mental, emotional, or behavioral disorders, conditions, or addictions through the application of methods derived from established psychological or systemic principals for the purpose of assisting people in modifying their behaviors, cognitions, emotions, and other personal characteristics, which may include the purpose understanding unconscious processes or intrapersonal, interpersonal, or psychosocial dynamics.</p> <p>Psychotherapy may be provided in an individual or group setting.</p>

<p><b>Medication Management</b></p> <p><b>Medication Management for Non-prescribers</b></p>	<p>Medication management services for <b>prescribers</b> include:</p> <ul style="list-style-type: none"> <li>➤ Diagnosing and specifying target symptoms</li> <li>➤ Prescribing medication to alleviate the identified symptoms</li> <li>➤ Monitoring changes in the member’s symptoms and tolerability of side effects</li> <li>➤ Reviewing data, including other medications, used to made medication decisions</li> </ul> <p>Prescribers may also provide all services the non-prescribers can provide as noted below.</p> <p>Medication management services for <b>non-prescribers</b> include:</p> <ul style="list-style-type: none"> <li>➤ Supporting the member in taking his or her medications Increasing the member’s understanding of the benefits of medication and the symptoms it is treating</li> <li>➤ Monitoring changes in the member’s symptoms and tolerability of side effects.</li> </ul>
<p><b>Substance Abuse Treatment</b></p>	<p>Substance abuse treatment services include day treatment (WI Administrative Code DHS 75.12) and outpatient substance abuse counseling (DHS 75.13). Substance abuse treatment services can be in an individual or group setting.</p> <p>The other categories in the service array also include psychosocial rehabilitation substance abuse services that support members in their recovery.</p> <p>The CCS program does not cover Operating While Intoxicated assessments, urine analysis and drug screening, detoxification services, medically managed inpatient treatment services, or narcotic treatment services (opioid treatment programs). Some of these services may be covered under Medicaid outside of the CCS program.</p>
<p><b>Wellness Management &amp; Recovery Services</b></p>	<p>Wellness management and recovery services, which are generally provided as mental health services, include empowering members to manage their mental health and/or substance abuse issues, helping them develop their own goals, and teaching them the knowledge and skills necessary to help them make informed treatment decisions. These services include: psychoeducation; behavioral tailoring; relapse prevention; development of a recovery action plan; recovery and/or resilience training; treatment strategies; social support building; and coping skills. Services can be taught using motivational, educational, and cognitive-behavioral strategies.</p> <p>If psychoeducation is provided without the other components of wellness management and recovery it should be billed under the individual and/or family psychoeducation service array category (#10).</p> <p>Recovery support services, which are generally provided as substance abuse services, include emotional, informational, instrumental, and affiliated support. Services include assisting the member in increasing engagement in treatment, developing appropriate coping strategies, and providing aftercare and assertive continuing care. Continuing care includes relapse prevention support and periodic follow-ups and is designed to provide less intensive services as the member progresses in recovery.</p>

# Contract Requirements for Western Region Integrated Care Providers

## 1. INSURANCE:

All Western Region Integrated Care service providers must protect itself as well as Western Region Integrated Care, La Crosse, Monroe, and Jackson Counties, their officers, Boards, and employees under indemnity provisions. Service provider will at all times, during the terms of the contract, keep in force insurance policies issued by an insurance company authorized to do business and licensed in the State of Wisconsin. Unless otherwise specified in Wisconsin Statutes, the types of insurance coverage and minimum amounts shall be as follows:

- **Workers' Compensation:** minimum statutory required amount
- **Comprehensive general liability:** \$1,000,000 per occurrence and in aggregate for bodily injury and property damage
- **Auto Liability** (if applicable): \$1,000,000 per occurrence and in aggregate for bodily injury and property damage
- **Professional Liability** (if applicable): minimum amount \$500,000
- **Excess Liability Coverage:** \$1,000,000 over the General Liability and Automobile Liability Coverages.

Western Region Integrated Care shall be given thirty (30) days advanced written notice of any cancellation or non-renewal of insurance during the term of the contract. Service provider will furnish Western Region Integrated Care with an insurance certificate from the insurance agency of such insurance upon returning the annual contract. In the event of any action, suit, or proceedings against Western Region Integrated Care, upon any matter indemnified against, Western Region Integrated Care shall within five (5) working days cause notice in writing thereof to be given to service provider by certified mail, addressed to its post office address. Western Region Integrated Care shall cooperate with service provider and its attorneys in defense of any action, suit or other proceeding.

See next page for Certificate of Liability Insurance example

## 2. AUDITS

- Western Region Integrated Care Service Providers are required to undergo a financial audit if the agency receives over \$100,000 per year of governmental funding.
- Providers of Title 19 ONLY services for CMO members have been granted a waiver by the State of Wisconsin (a waiver request from these Providers is not required).
- According to the Provider Agency Audit Guide section 1.2, the requirement of audits specifically refers to care and services purchased. Therefore, providers of **goods only** are not required to submit an audit. If you are a provider of goods and services, then you may be required to submit an audit and will be sent other appendixes.
- Audits are due to the La Crosse County Human Services Contract Supervisor 180 days or six (6) months after completion of service provider's fiscal year.
- Examples of a few key components of audits that need to be performed:
  - A. Opinion of Financial Statements and Supplementary Schedule of Expenditures of Federal & State Awards
  - B. Financial Statements of the Overall Agency
  - C. Report on Compliance & Internal Control(s) over Financial Reporting
  - D. Schedule of findings & questioned costs
  - E. Schedule of prior year findings
  - F. Corrective action plan for any deficient findings
  - G. Schedule of expenditures of Federal and State Awards

## 3. CIVIL RIGHTS COMPLIANCE

### CIVIL RIGHTS COMPLIANCE

- A. Provider agrees to comply with all non-discrimination requirements and all applicable affirmative action and civil rights compliance laws and regulations, both state and federal, including those listed at <https://www.dhs.wisconsin.gov/civil-rights/index.htm>.
- B. Documentation demonstrating compliance with this article will be available for review and submission upon request of Purchaser.

## 4. SERVICE PLAN AUTHORIZATION

- A. Provider agrees to comply with Purchaser's process to receive required finalized & signed service plan prior to providing the services under this contract.
- B. All services provided to eligible clients under this contract must be authorized by Purchaser prior to the delivery of services, and the total services provided each week/month to individual clients under this Contract may not exceed the amounts authorized by Purchaser. A social worker, consumer, and team will develop a service plan. The service plan is the authorization of services. An Individual Service Authorization (ISA) will specify each service to be authorized by the Purchaser and shall

match the service plan. Service Authorization reports are a guide for Providers, but it is not the official authorization of services for CCS. A written (and/or electronic) authorization for each and every service to be provided will be sent (either electronically or via mail) to the service provider specifying the service to be provided, the amount of service (number of units) to be provided, the rate to be paid for the service, the funding source and the duration of the service to be provided. Provider may request additional service units if clinically needed; however, the final decision for any change or update to the service plan rests with the Purchaser. Increase service units are not approved until a service plan is updated, finalized, and signed by all necessary parties.

- C. It is understood that the final authority for determining client eligibility for service and the amount of services to be provided to individual clients rest with Purchaser and that Provider will not be reimbursed for unauthorized services provided to clients or provided in amounts that exceed those authorized for individual clients. Also, provider will not be reimbursed for providing services to clients who have lost their eligibility for services, if such services have been provided after the Provider receives notice of loss of eligibility.
- D. Provider must comply with Purchaser's individualized service plans to be reimbursed for client services provided under this contract.
- E. Provider agrees to provide services to clients each week/month only in the amounts authorized by Purchaser and to accept full responsibility for the cost of any services provided by Provider that exceed the amounts authorized by Purchaser. Under no circumstances shall Provider seek payment from Purchaser, or client, for the cost of services exceeding the total amount(s) authorized under this Contract.
- F. Provider agrees that services will be available to eligible clients throughout the entire period of this Contract and to accept all clients referred by Purchaser as long as Provider has capacity to serve authorized clients.
- G. Provider may not transfer a client from one category of care or service to another without written authorization by an approved service plan by the Purchaser.
- H. Purchaser reserves the right to withdraw any client from the program, service, institution or facility of the Provider at any time when in the judgment of Purchaser it is in the best interest of Purchaser or the client to do so.
- I. Purchaser shall notify its providers, if applicable, of different procedures than A-I.

## **5. CLAIM SUBMISSION**

### **CLAIM SUBMISSION**

Clean Claims should be submitted with the following information on the claim form:

1. Clients First and Last Name
2. Number of units of service provided: By day, month or hour as contracted for
3. Total fee
4. Dates of Service (one calendar month on an invoice)
5. Contract Rate
6. Invoice #
7. Billing contact name and number for Provider
8. The performing provider
9. Accurate and Current Degrees of person providing service
10. Claim should be in Excel format

Note: All the personnel documents need to be submitted, as well as no errors in documentation/invoice to be considered a clean claim (60 days from the last day of the month that the service was provided). Billing may be denied if all necessary documents are not obtained within the 60 days and considered a clean claim.

Claims should be separate pages for separate funding sources, for ease in getting the invoice to the accounts payable person(s) that it needs to go to. (i.e. CMO, CCS, CRS, CLTSW etc. itemization should not be on the same page. There can be a cover sheet that shows a summary for all, but then each funding source itemization should be printed on separate pages.). Invoices may be separated, so each client has their own invoice. This may help with processing and submitting more timely.

**Note for Vendors:** If a CCS consumer also has **private insurance**, you should bill CCS first, not commercial insurance. Also, you cannot bill private insurance using traditional mental health outpatient billing codes because the services provided are CCS services authorized on the CCS service plan. Please reach out to the CCS administrator or service director with further questions.

Please see the following invoice example:

**INVOICE FORMAT EXAMPLE**

## PERSONNEL REQUIREMENTS (DHS 36.10):

- Discrimination Prohibited: Employment practices of WRIC CCS or any agency contracting or subcontracting with WRIC CCS do not discriminate against any staff member or applicant for employment based on the individual's age, race, religion, color, sexual orientation, national origin, disability, ancestry, marital status, pregnancy or childbirth, or arrest or conviction record.
- All staff performing CCS services must have the **professional certification, training, experience** and abilities to carry out prescribed duties.
- **Professional Letters of Recommendation or References** needed for all CCS providers obtained from at least **2 people**, including previous employers, educators or post-secondary educational institutions attended if available, and documented either by letter or verification of verbal contact with the reference, dates of contact, person making the contact, individuals contacted and nature and content of the contact.
- Confirmation of a CCS provider's current **professional license or certification** if that license or certification is necessary for the staff member's prescribed duties or position.
- Results of **Background Checks & Misconduct Reporting** (See Background Checks & Misconduct Reporting & Investigation section for further details)
- Copy of a CCS provider's **degree** (excluding high school diploma)

## BACKGROUND CHECKS & MISCONDUCT REPORTING & INVESTIGATION

CCS and contracting agencies are responsible to comply with the caregiver background check and misconduct reporting requirements in s. 50.065, Stats., and ch. DHS 12, and the caregiver misconduct reporting and investigation requirements in ch. DHS 13. Criminal and caregiver background checks must be conducted by the agency on all staff providing CCS services *prior to contracting and/or initiating services*.

Forms for conducting a caregiver background check including the background information disclosure form may be obtained from the Department's website at <http://www.dhs.wisconsin.gov/forms/DQAnum.asp> or by contacting Dept at Office of Caregiver Quality, P.O. Box 2969, Madison, WI 53701-2969, (608) 261-8319.

For questions on the caregiver background check and misconduct reporting requirements, please visit the following website: <https://www.dhs.wisconsin.gov/caregiver/cbcprocess.htm>

The Background Check process includes each of the following:

- Completed Background Information and Disclosure (BID) form for every background check conducted
- Copy of Department of Justice (DOJ) criminal background check results
- Copy of Caregiver background check results
- Copy of Out of State background checks if applicable
- Results of any subsequent investigation related to the information obtained from the background check
- Note: contracted agency shall review background check results to ensure in compliance with DHS regulations)

Submission of Background Check Information:

- Contracted agencies are responsible for submitting all CCS performing providers' background verification (BID, DOJ, Caregiver, Out of State checks) for new staff and every 4 years
- All background check information shall be submitted to [hsinvoices@lacrossecounty.org](mailto:hsinvoices@lacrossecounty.org) at the time of invoice/progress note submission.
- Update Performing Provider Spreadsheet with the date of background check completion for each CCS staff

## CCS STAFF QUALIFICATION DEFINITIONS

WRIC CCS is required per DHS36 to list the qualifications of any provider that delivers a face-to-face service that is purchased by the program. Contracted vendor staff all fall into the function of “service array.”

The following categories will assist you in determining what to list as the “qualifications” of each staff:

1. Psychiatrists shall be physicians licensed under ch. 448, Stats., to practice medicine and surgery and shall have completed 3 years of residency training in psychiatry, child or adolescent psychiatry, or geriatric psychiatry in a program approved by the accreditation council for graduate medical education and be either board-certified or eligible for certification by the American board of psychiatry and neurology.
2. Physicians shall be persons licensed under ch. 448, Stats., to practice medicine and surgery who have knowledge and experience related to mental disorders of adults or children; or, who are certified in addiction medicine by the American society of addiction medicine, certified in addiction psychiatry by the American board of psychiatry and neurology or otherwise knowledgeable in the practice of addiction medicine.
3. Psychiatric residents shall hold a doctoral degree in medicine as a medical doctor or doctor of osteopathy and shall have successfully completed 1500 hours of supervised clinical experience as documented by the program director of a psychiatric residency program accredited by the accreditation council for graduate medical education.
4. Psychologists shall be licensed under ch. 455, Stats., and shall be listed or meet the requirements for listing with the national register of health service providers in psychology or have a minimum of one year of supervised post-doctoral clinical experience related directly to the assessment and treatment of individuals with mental disorders or substance-use disorders.
5. Licensed clinical social workers shall meet the qualifications established in ch. 457, Stats., and be licensed by the examining board of social workers, marriage and family therapists and professional counselors with 3000 hours of supervised clinical experience where the majority of consumers are children or adults with mental disorders or substance-use disorders.
6. Professional counselors and marriage and family therapists shall meet the qualifications required established in ch. 457, Stats., and be licensed by the examining board of social workers, marriage and family therapists and professional counselors with 3000 hours of supervised clinical experience where the majority of consumers are children or adults with mental disorders or substance use disorders
7. Adult psychiatric and mental health nurse practitioners, family psychiatric and mental health nurse practitioners or clinical specialists in adult psychiatric and mental health nursing shall be board certified by the American Nurses Credentialing Center, hold a current license as a registered nurse under ch. 441, Stats., have completed 3000 hours of supervised clinical experience; hold a master’s degree from a national league for nursing accredited graduate school of nursing; have the ability to apply theoretical principles of advanced practice psychiatric mental health nursing practice consistent with American Nurses Association scope and standards for advanced psychiatric nursing practice in mental health nursing from a graduate school of nursing accredited by the national league for nursing.
8. **a.** Advanced practice nurse prescribers shall be adult psychiatric and mental health nurse practitioners, family psychiatric and mental health nurse practitioners or clinical specialists in adult psychiatric and mental health nursing who are board certified by the American Nurses Credentialing Center; hold a current license as a registered nurse under ch. 441, Stats.; have completed 1500 hours of supervised clinical experience in a mental health environment; have completed 650 hours of supervised prescribing experience with consumers with mental illness and the ability to apply relevant theoretical principles of advance psychiatric or mental health nursing practice; and hold a master’s degree in mental health nursing from a graduate school of nursing from an approved college or university. **b.** Advanced practice nurses are not qualified to provide psychotherapy unless they also have completed 3000 hours of supervised clinical psychotherapy experience.

9. Certified social workers, certified advance practice social workers and certified independent social workers shall meet the qualifications established in ch. 457, Stats., and related administrative rules, and have received certification by the examining board of social workers, marriage and family therapists and professional counselors.
10. Psychology residents shall hold a doctoral degree in psychology meeting the requirements of s. 455.04 (1) (c), Stats., and shall have successfully completed 1500 hours of supervised clinical experience as documented by the Wisconsin psychology examining board.
11. Physician assistants shall be certified and registered pursuant to ss. 448.05 and 448.07, Stats., and chs. Med 8 and 14.
12. Registered nurses shall be licensed under ch. 441, Stats.,
13. Occupational therapists shall be licensed and shall meet the requirements of s. 448.963 (2), Stats.
14. Master's level clinicians shall have a master's degree and coursework in areas directly related to providing mental health services including master's in clinical psychology, psychology, school or educational psychology, rehabilitation psychology, counseling and guidance, counseling psychology or social work.
15. Other professionals shall have at least a bachelor's degree in a relevant area of education or human services.
16. Alcohol and drug abuse counselors shall be certified by the department of safety and professional services. Note: Persons previously referred to as "alcohol and drug abuse counselors" are referred to as "substance abuse professionals" in the department of safety and professional service rules
17. Specialists in specific areas of therapeutic assistance, such as recreational and music therapists, shall have complied with the appropriate certification or registration procedures for their profession as required by state statute or administrative rule or the governing body regulating their profession.
18. Certified occupational therapy assistants shall be licensed and meet the requirements of s. 448.963 (3), Stats.
19. Licensed practical nurses shall be licensed under ch. 441, Stats..
20. A peer specialist, meaning a staff person who is at least 18 years old, shall have successfully completed 30 hours of training during the past two years in recovery concepts, consumer rights, consumer-centered individual treatment planning, mental illness, co-occurring mental illness and substance abuse, psychotropic medications and side effects, functional assessment, local community resources, adult vulnerability, consumer confidentiality, a demonstrated aptitude for working with peers, and a self-identified mental disorder or substance use disorder.
21. A **rehabilitation worker**, meaning a staff person working under the direction of a licensed mental health professional or substance abuse professional in the implementation of rehabilitative mental health, substance use disorder services as identified in the consumer's individual treatment plan who is at least 18 years old shall have successfully completed 30 hours of training during the past two years in recovery concepts, consumer rights, consumer-centered individual treatment planning, mental illness, co-occurring mental illness and substance abuse, psychotropic medications and side effects, functional assessment, local community resources, adult vulnerability, and consumer confidentiality.
22. Clinical students shall be currently enrolled in an accredited academic institution and working toward a degree in a professional area identified in this subsection and providing services to the CCS under the supervision of a staff member who meets the qualifications under this subsection for that staff member's professional area.

## DOCUMENTATION OF QUALIFICATIONS:

- Contracted agencies will update the performing provider verification sheet monthly and submit to [hsinvoices@lacrossecounty.org](mailto:hsinvoices@lacrossecounty.org) (for all new staff and when changes occur)
- Performing provider verification sheet shall include changes/updates to any of the following: staff names, degree, license #, qualifications, training logs, references, and background checks
- Documentation of staff qualifications shall be available for review by consumers and parents or legal representatives of consumers if parental or legal representative consent to treatment is required.

## SUPERVISION & CLINICAL COLLABORATION (DHS 36.11):

- Each staff member shall be supervised and provided with the consultation needed to perform assigned functions and meet the credential requirements of this chapter and other state and federal laws and professional associations.
- Supervision may include clinical collaboration. Clinical collaboration may be an option for supervision only among staff qualified under s. DHS 36.10 (2) (g) 1. to 8. Supervision and clinical collaboration shall be accomplished by one or more of the following:
  1. Individual sessions with the staff member case review, to assess performance and provide feedback.
  2. Individual side-by-side session in which the supervisor is present while the staff member provides assessments, service planning meetings or psychosocial rehabilitation services and in which the supervisor assesses, teaches and gives advice regarding the staff member's performance.
  3. Group meetings to review and assess staff performance and provide the staff member advice or direction regarding specific situations or strategies.
  4. Any other form of professionally recognized method of supervision designed to provide sufficient guidance to assure the delivery of effective services to consumers by the staff member.
- Each staff member qualified under s. DHS 36.10 (2) (g) 9. to 22. shall receive, from a staff member qualified under s. DHS 36.10 (2) (g) 1. to 8., day-to-day supervision and consultation and at least one hour of supervision per week or for every 30 clock hours of face-to-face psychosocial rehabilitation services or service facilitation they provide. Day-to day consultation shall be available during CCS hours of operation.
- Each staff member qualified under s. DHS 36.10 (2) (g) 1. to 8. shall participate in at least one hour of either supervision or clinical collaboration per month or for every 120-clock hours of face-to-face psychosocial rehabilitation or service facilitation they provide.
- Clinical supervision and clinical collaboration records shall be dated and documented with a signature of the person providing supervision or clinical collaboration in one or more of the following:
  - The master log.
  - Supervisory records.
  - Staff record of each staff member who attends the session or review.
  - Consumer records
- The service director may direct a staff person to participate in additional hours of supervision or clinical collaboration beyond the minimum identified in this subsection in order to ensure that consumers of the program receive appropriate psychosocial rehabilitation services.
- A staff member qualified under s. DHS 36.10 (2) (g) 1. to 8. who provides supervision or clinical collaboration may not deliver more than 60 hours per week of face-to-face psychosocial rehabilitation

services, clinical services and supervision or clinical collaboration in any combination of clinical settings.

**SUBMISSION OF SUPERVISION LOGS:**

- Contracted agencies are responsible for submitting all CCS performing providers’ supervision logs to [HSinvoices@lacrossecounty.org](mailto:HSinvoices@lacrossecounty.org) with invoices at least quarterly.

**DHS Approved Methods of Clinical Supervision**

1. Individual consultation sessions between a staff member and clinical supervisor to assess individual performance and provide feedback
2. Side-by-side observation of a staff session by a clinical supervisor to observe staff’s ability to engage in assessment, service planning, or direct care services. As part of this, supervisor is providing in-the-moment feedback, guidance, and education to the staff
3. Group meetings to review and assess staff members’ performance and give general advice and direction regarding specific intervention strategies or situations
4. Any other form of professionally recognized method of supervision that typically involves a learning contract and staff performance evaluation between the staff member and clinical supervisor

Time spent in training sessions or academic/educational programs do not count towards clinical supervision time. Clinical supervision time must have the ability to provide live, in-the-moment assessment and evaluation of an individual’s professional skills and application of knowledge.

**Methods to Document Clinical Supervision**

*(ask WRIC CCS administration for supervision spreadsheet templates)*

<p><b>Option 1 – Individual Staff Records</b></p> <ul style="list-style-type: none"> <li>– Each staff member is responsible to complete their own individual log</li> <li>– Ideal for staff/agencies that consult with multiple individuals for clinical supervision</li> <li>– Example: agency does not have a clinician on staff and consults various mental health professionals on the consumers’ treatment teams</li> <li>– How to Complete:             <ul style="list-style-type: none"> <li>○ Each staff records who they met with on an individual log</li> <li>○ Each staff members turns in their individual log to agency supervisors</li> <li>○ Agency supervisors submit all individual logs each quarter to contracting unit</li> <li>○ Individual logs are supported by case notes in the consumers’ file</li> </ul> </li> </ul>	<p><b>Option 2 – Clinical Supervisor Master Log</b></p> <ul style="list-style-type: none"> <li>– Clinical supervisor completes a master log from sign-in sheets</li> <li>– Ideal for agencies that consult with the same clinical supervisor(s) consistently</li> <li>– Examples: agency has their own internal clinical supervisor who meets with all agency staff; agency that contracts a clinical supervisor to be available for all agency staff</li> <li>– How to Complete:             <ul style="list-style-type: none"> <li>○ Clinical Supervisor has a sign-in sheet for each group/individual supervision session</li> <li>○ Clinical Supervisor maintain general notes of the supervisor session</li> <li>○ Clinical Supervisor or agency maintains and turns in master log of all supervisory sessions for all staff supervised each quarter</li> </ul> </li> </ul>
---	--

## **WRIC CCS ORIENTATION & TRAINING REQUIREMENTS (TRAINING LOG) DHS 36.12**

- At least 40 hours of documented orientation training within 3 months of beginning employment for each CCS performing provider who has less than 6 months experience providing psychosocial rehabilitation services to children or adults with mental disorders or substance-use disorders.
- At least 20 hours of documented orientation training within 3 months of beginning employment for each CCS performing provider who has 6 months or more experience providing psychosocial rehabilitation services to children or adults with mental disorders or substance-use disorders.
- At least 40 hours of documented orientation training for each regularly scheduled volunteer before allowing the volunteer to work independently with consumers or family members.
- At least 8 hours of in-service training per year that shall be designed to increase the knowledge and skills received by staff during their initial orientation.
  - Staff may apply documented in-service hours received/completed for their continuing education requirements for particular licensures toward this requirement.
  - Ongoing in-service training shall include one or more of the following:
    1. Time set aside for in-service training, including discussion and presentation of current principles and methods of providing psychosocial rehabilitation services.
    2. Presentations by community resource staff from other agencies, including consumer operated services.
    3. Conferences or workshops.
- Orientation training shall include and staff members shall be able to apply all of the following:
  1. DHS 36 administrative code
  2. Policies and procedures pertinent to the services they provide
  3. Job responsibilities for staff members and volunteers (as part of the agencies' orientation & job description)
  4. Applicable parts of chs. 48, 51 and 55, Stats., and any related administrative rules.
  5. The basic provisions of civil rights laws including the Americans with disabilities act of 1990 and the civil rights act of 1964 as the laws apply to staff providing services to individuals with disabilities.
  6. Current standards regarding documentation and the provisions of HIPAA, s. 51.30, Stats., ch. DHS 92 and, if applicable, 42 CFR Part 2 regarding confidentiality of treatment records.
  7. The provisions of s. 51.61, Stats., and ch. DHS 94 regarding patient rights.
  8. Current knowledge about mental disorders, substance-use disorders and co-occurring disabilities and treatment methods.
  9. Recovery concepts and principles which ensure that services and supports promote consumer hope, healing, empowerment and connection to others and to the community; and are provided in a manner that is respectful, culturally appropriate, collaborative between consumer and service providers, based on consumer choice and goals and protective of consumer rights.
  10. Current principles and procedures for providing services to children and adults with mental disorders, substance-use disorders and co-occurring disorders. Areas addressed shall include recovery-oriented assessment and services, principles of relapse prevention, psychosocial rehabilitation services, age-appropriate assessments and services for individuals across the lifespan, trauma assessment and treatment approaches, including symptom self-management, the relationship between trauma and mental and substance abuse disorders, and culturally and linguistically appropriate services.

11. Techniques and procedures for providing non-violent crisis management for consumers, including verbal de-escalation, methods for obtaining backup, and acceptable methods for self-protection and protection of the consumer and others in emergency situations, suicide assessment, prevention and management.
12. Training that is specific to the position for which each employee is hired.

**SUBMISSION OF TRAINING LOGS:**

- If a provider does not have a minimum of a bachelor's degree in a Human Services related field, provider is expected to complete the Rehabilitation Training Requirement.
  - Provider shall have *successfully completed 30 hours of training during the past two years* in recovery concepts, consumer rights, consumer-centered individual treatment planning, mental illness, co-occurring mental illness and substance abuse, psychotropic medications and side effects, functional assessment, local community resources, adult vulnerability, and consumer confidentiality
  - The 30 hours of training for a rehabilitation worker needs to be completed PRIOR to providing/billing a service to CCS (see RW training log on page 27)
- Contracted agencies are responsible for submitting all CCS performing providers' training logs for new staff within 3 months of employment and annually thereafter
- All training logs shall be submitted to [hsinvoices@lacrossecounty.org](mailto:hsinvoices@lacrossecounty.org) mailbox at the time of invoice/progress note submission
- Update Performing Provider Spreadsheet with the date of background check completion for each wruc CCS staff

(See next page for WRIC CCS Training Log)

## COMPREHENSIVE COMMUNITY SERVICE PROGRAM (CCS) REHABILITATION WORKER TRAINING LOG

**Provider:** \_\_\_\_\_ **Staff Name:** \_\_\_\_\_

**Position:** \_\_\_\_\_ **Completed on (date):** \_\_\_\_\_

**A Rehabilitation Worker is a staff member who is:**

- at least 18 years old;
- working under the direct supervision and guidance of a licensed mental health professional or substance abuse professional to provide mental health/substance use services to individuals;
- does not hold at minimum a bachelor’s degree or state certification in a relevant health, education, or human services profession as described in [DHS 36.10\(2\)\(g\)](#)
- completed 30 hours of training in the past 2 years in the topics listed below;

**Training Hours: 30 hours** completed within the past 2 years

*This is to be completed prior to the additional 40 hours of CCS orientation training. This log must be submitted before a staff can begin providing CCS services.*

 La Crosse, WI 54601

**To sign up for the online CCS behavioral health training, please complete the following steps:**

1. Go to: [Self-Paced Trainings - Behavioral Health Training Partnership - UW-Green Bay \(uwgb.edu\)](https://uwgb.edu/self-paced-trainings-behavioral-health-training-partnership)
2. Click “Register Now”
3. Step 1: Complete the “Participant Information” by filling in all your information, using your work email, address, and phone number.
  - For the question, “Are you employed by a member county?,” select “yes.”
  - For the question, “Are you contracted with a member county?,” select “no”
  - For the question, “Member County Contracted With,” select “I am not contracted with a member county.”
  - Click “Next”
4. Step 2: “Registration Options”
  - Check “Member Fee, Employed/Contracted with a Member County”
  - Click “Next”
5. Step 3: “Web-based Courses”
  - Check “Dual Track Crisis/CCS Web-based Course”
  - Click “Next”
6. Step 4: “Order Details” (should have 2 items shown: “Member Fee & Dual Track Crisis/CCS Web-based Course”)
  - Click “Submit”

Once a registration is submitted, the Behavioral Health Training Partnership receives a confirmation email. They then manually assign a username and password to the course, and email that information to you. It may take them up to a week to manually process registrations. **Please follow the instructions that they send regarding next steps for registering for the web-based Crisis Intervention/CCS Dual Track core curriculum**
