Dear Business Participant:

This packet has been forwarded to you and other area business owners and managers from the La Crosse County Household Hazardous Materials (HHM) program. The HHM program staff understands that many area businesses create small amounts of hazardous materials and are looking for an effective and cost efficient means of disposing of such items. Per our state mandated regulations, we may be able to offer such a service to your business.

The Household Hazardous Materials facility can accept hazardous waste from businesses determined to be Very Small Quantity Generators (VSQG). A VSQG is a business that generates no more than 220 pounds of hazardous waste per month and stores no more than 2,200 pounds on site at any one time. A business also must not generate more than 2.2 pounds of acutely hazardous material per month.

If you qualify for the program, have material for disposal, and would like to utilize our services please complete and return the VSQG Certification form. If you have any questions or concerns please call 608-785-9999.

Thank you again for your interest and we look forward to hearing from you.

Sincerely,

Randy Nedrelo
Special Waste Manager
